

Target Audience:

Nurses, Physicians, Paramedics and EMT's interested in pre-hospital emergency care of patients with neurological injuries and disorders.

Goals:

The goal is to present emergency care providers, physicians, nurses and first responders with the information necessary to improve outcomes in the care of Trauma patients and those with Traumatic Brain Injury.

Objectives:

1. Identify the cause and classification of patients with TBI
2. Discuss the following mechanisms of traumatic injuries that could result with TBI
 - FALLS • MVC
3. Patient Care Acknowledgement
4. Other areas of Trauma
 - Burns • Ortho • Pediatrics • RSI/Airway Management • SAFE – Traumatic Assaults
5. Additional Education
 - Emergency Management • Virtual Autopsy

Continuing Medical Education Information:

This activity has been submitted to the Emergency Nurses Association pending approval. The Emergency Nurses Association is accredited as an approver of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

There will be 9 hours CME Medical Control Contact hours approved through the Hudson Valley and Westchester REMAC.

There is no commercial support for this program.
