Course Description
This symposium will provide pediatricians, adolescent medicine specialists, internists, family practitioners, hematologists, oncologists, Emergency Room providers, psychologists, social workers, nurses and nurse practitioners with the most current information about the identification, etiology and management of common hematologic and oncologic problems that affect adolescents and young adults (AYA). A potpourri of topics will be presented by renowned specialists from a variety of disciplines. Attendance offers participants an opportunity to update their knowledge regarding the management of AYA patients with both common and complex hematologic and oncologic diagnoses, as well as the care of survivors of cancer. A section focusing on supportive care will address AYA-specific issues that providers often find difficult to discuss with their patients. Participation in this educational offering will result in better identification, diagnosis, decision-making, communication and treatment when AYA patients present with hematologic or oncologic disorders. Networking breaks will enable attendees to interact with faculty and forge new collegial relationships that will improve their patients’ experiences.

Target Audience
This educational program is designed for healthcare and other professionals involved in management of hematologic and oncologic malignancies in adolescents and young adults, including:
- Adolescent Medicine Specialists
- Pediatricians and Pediatric Nurse Practitioners
- Internists, Family Physicians and Family Nurse Practitioners
- Emergency Room Physicians, Nurse Practitioners and Physician Assistants
- Psychiatric and Psychologists
- Medical and Surgical residents and fellows
- Medical and Mental Health Social Workers
- Nurses and Nursing Assistants
- Patient Navigators and Educators

CME Accreditation Statement
New York Medical College is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. New York Medical College designates this Live activity for a maximum of 4.8 AMA PRA Category 1 Credit™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Learning Objectives
Upon completion of this program, the participant will be able to:
1. Identify the etiology and treatment for a variety of hematologic problems in AYA
2. Recognize advances in oncologic treatments for AYA with leukemia and oncologic emergencies
3. Strategize ways to address mental-health issues while supporting normalcy in patients with hematologic or oncologic diagnoses
4. Encourage patients who have completed therapy to participate in wellness and survivor programs
5. Secure the assistance of the multidisciplinary AYA team to coordinate all aspects of patient care.
