

LICENSED HOME CARE

**MidHudson
Regional Hospital**

Westchester Medical Center Health Network

MidHudsonRegional.org

Case Management

- Comprehensive professional nursing, clinical assessments and care plan development
- Service delivery monitoring and care plan reevaluation
- Liaisonship to hospitals, physicians, elder care attorneys, CPAs, insurance companies, banks and other relevant contacts
- Arranging and conducting of screenings for appropriate services, such as home care, day care or other in-home help
- Referrals to legal services and other community resources
- Coordination of household management and shopping

Specialty Services

- **PRI/SCREEN:** Our PRI/SCREEN-certified nurses evaluate a patient's viability in the home or skilled nursing facility.
- **NHTD Program participant:** We are an approved New York State provider of services for the Nursing Home Transition and Diversion Program.
- **Transportation:** Our aides transport clients to and from physician appointments and other engagements.
- **Respite:** We provide support for short periods of time to accommodate special circumstances.
- **Training:** We currently offer training under the NYS Home Health Aide training program. These courses are open to the public when applicants meet the NYS requirements.

Committed to Care

MidHudson Regional Licensed Home Care provides you with everything you need to live safely in your home. Services include:

- Live-in aides
- Certified home health aides
- Personal care aides
- In-home safety technology
- Homemaker services
- Companion services (at home or the hospital)
- All aides are NYS certified

A registered nurse, licensed by the New York State Department of Health, works with you and your family to identify the services that will meet your needs.

Leader in Technology

MidHudson Regional Licensed Home Care offers the most innovative and affordable technology options in the area. Highly trained staff provide support 24 hours a day, seven days a week — and that is great peace of mind for family members near and far.

Personal Emergency Response System (PERS)

MidHudson Regional Licensed Home Care offers a variety of discrete PERS technologies that put you in touch with emergency assistance at the press of a button. The PERS program does not require a contract and is available for a reasonable monthly fee. The small amount of equipment is professionally installed, with three personal alert options, each of which is waterproof and comfortable to wear.

Med-Ready

We offer the Med-Ready medication-dispensing unit, which allows a patient to take the proper medication at the proper time — avoiding over dosages and medication interactions. Med-Ready is loaded with medication by a registered nurse or family member and has a fully adjustable timer system. Installation and maintenance of the unit is affordable and requires no contract.

Support Services

Free 'Lunch & Learn' Forums

Informational gatherings on the state of the healthcare industry, the potential financial impact, and planning for the future.

Grocery Shopping

A grocery shopper so you don't have to leave the comfort of your home.

Safety Assessments

A comprehensive home safety assessment to help you remain independent in your home.

Free Monthly Workshops

Free seminars throughout the county on various topics, provided by trained professionals in collaboration with Dutchess County.

Monthly Support Group

Support groups for you and your family members, caregivers and friends to connect with professionals and learn about community resources.

If you are looking for in-home medical services, including skilled nursing, wound care and therapy, call MidHudson Regional Licensed Home Care at 845.483.5551.
